### 1 [Papers: novel 2D interaction: Side views: persistent, on-demand previews for open-ended tasks](#)

Michael Terry, Elizabeth D. Mynatt

 October 2002 **Proceedings of the 15th annual ACM symposium on User interface software and technology**
Full text available: [pdf\(479.12 KB\)](#)
[mov\(300.00](#)
[bytes\)](#) [wmv](#)
[\(300.00 bytes\)](#)

 Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

We introduce Side Views, a user interface mechanism that provides on-demand, persistent, and dynamic previews of commands. Side Views are designed to explicitly support the practices and needs of expert users engaged in openended tasks. In this paper, we summarize results from field studies of expert users that motivated this work, then discuss the design of Side Views in detail. We show how Side Views' design affords their use as tools for clarifying, comparing, and contrasting commands; genera ...

### 2 [Own your own color print shop for fun and \(a small\) profit](#)

Christopher Jones

 November 2002 **Proceedings of the 30th annual ACM SIGUCCS conference on User services**
Full text available: [pdf\(102.13 KB\)](#)
 Additional Information: [full citation](#), [abstract](#), [index terms](#)

The School of Architecture and Allied Arts at the University of Oregon runs its own color print shop for students, faculty, and staff. This paper and poster provide details of its operation. We offer printing on a color laser printer and four large-format inkjet printers, between 24 and 42 inches wide. All printers are served through an AppleShare IP server, which will be upgraded to run OS X Server beginning in Fall 2002. All print jobs are placed on hold at the print server when they arrive. Cust ...

**Keywords:** color printing, poster, print charging, printing, wide-format printing

### 3 [Implementation of fee-based printing in student computing sites](#)

Carol Jarom, Steven J. Timmins

 September 2003 **Proceedings of the 31st annual ACM SIGUCCS conference on User services**
Full text available: [pdf\(155.84 KB\)](#)
 Additional Information: [full citation](#), [abstract](#), [index terms](#)

After years of providing no-cost printing in its computing sites, the University of Delaware (UD) decided to move to a fee-based printing scheme for its student computing sites. This paper discusses the development, testing and implementation of this system, as well as

campus reaction to the prospect of paying for something for which they had not previously been charged. In 2001, printing costs rose more than 25%. Professors post class notes, syllabi, homework and exam solutions, and e and ven en ...

#### 4 Interface and data architecture for query preview in networked information systems

Catherine Plaisant, Ben Shneiderman, Khoa Doan, Tom Bruns

July 1999 **ACM Transactions on Information Systems (TOIS)**, Volume 17 Issue 3

Full text available:  [pdf\(1.06 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

There are numerous problems associated with formulating queries on networked information systems. These include increased data volume and complexity, accompanied by slow network access. This article proposes a new approach to a network query user interfaces that consists of two phases: query preview and query refinement. This new approach is based on the concepts of dynamic queries and query previews, which guides users in rapidly and dynamically eliminating undesired records, reducing the ...

#### 5 Foundations: How much is too much in a hypertext link?: investigating context and preview -- a formative evaluation

Simon Harper, Yeliz Yesilada, Carole Goble, Robert Stevens

August 2004 **Proceedings of the fifteenth ACM conference on Hypertext & hypermedia**

Full text available:  [pdf\(472.86 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

A high quality of free movement, or mobility, is key to the accessibility, design, and usability of many 'common-use' hypermedia resources (Web sites) and key to good mobility is context and preview. This is especially the case when a hypertext anchor is inaccurately described or is described out of context as confusion and disorientation can ensue. Mobility is similarly reduced when the link target of the anchor has no relationship to the expected information present on the hypertext node (Web ...

**Keywords:** document engineering, evaluation, hypertext, web mobility

#### 6 Video Retrieval and Browsing: Learning video browsing behavior and its application in the generation of video previews

Tanveer Syeda-Mahmood, Dulce Ponceleon

October 2001 **Proceedings of the ninth ACM international conference on Multimedia**

Full text available:  [pdf\(1.86 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

With more and more streaming media servers becoming commonplace, streaming video has now become a popular medium of instruction, advertisement, and entertainment. With such prevalence comes a new challenge to the servers: Can they track browsing behavior of users to determine what interest users? Learning this information is potentially valuable not only for improved customer tracking and context-sensitive e-commerce, but also in the generation of fast previews of videos for easy pre-downloads. ...

**Keywords:** audio, browsing behavior, interesting content, learning, topics, video previews

#### 7 A framework for supporting previewing and VCR operations in a low bandwidth environment

Wallapak Tavanapong, Kien A. Hua, James Z. Wang

November 1997 **Proceedings of the fifth ACM international conference on Multimedia**

Full text available:  [pdf\(1.66 MB\)](#) Additional Information: [full citation](#), [references](#), [citations](#), [index terms](#)

**Keywords:** VCR functions, World-Wide-Web, digital libraries, home users, pipelining, video player

8 Graphical query specification and dynamic result previews for a digital library

Steve Jones

November 1998 **Proceedings of the 11th annual ACM symposium on User interface software and technology**

Full text available:  [pdf\(388.97 KB\)](#) Additional Information: [full citation](#), [references](#), [citations](#), [index terms](#)

**Keywords:** dynamic queries, query by diagram, query previews

9 DOCUMENTS: an interactive online solution to four documentation problems

T. R. Girill, Clement H. Lulc

May 1983 **Communications of the ACM**, Volume 26 Issue 5

Full text available:  [pdf\(1.14 MB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

An adequate delivery system for user documentation addresses the problems of easy access, versatile publication, convenient administration, and good document quality. At the National Magnetic Fusion Energy Computer Center the DOCUMENT program helps solve these problems by providing a high level of service through strategies that can readily be exported to other contexts. Dividing machine-readable documents into keyword windows permits fully online, subject-oriented ...

10 The CHI '95 conference electronic publication: introduction to an experiment

Robert Mack, Linn Marks, Dave Collins, Keith Instone

April 1996 **ACM SIGCHI Bulletin**, Volume 28 Issue 2

Full text available:  [pdf\(1.57 MB\)](#) Additional Information: [full citation](#), [index terms](#)

11 Recognizing creative needs in user interface design

Michael Terry, Elizabeth D. Mynatt

October 2002 **Proceedings of the fourth conference on Creativity & cognition**

Full text available:  [pdf\(478.46 KB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

The creative process requires experimentation, the exploration of variations, and the continual evaluation of one's progress. While these processes are frequently non-linear and iterative, modern user interfaces do not explicitly support these practices, and instead impose a linear progression through tasks that is a poor fit for creative pursuits. In this paper we use data from three case studies, and draw upon Sch#246;n's theory of reflection-in-action to illustrate specific deficiencies in c ...

**Keywords:** creativity, image manipulation, non-linear interaction model, on-demand previews, open-ended tasks, side view

**12 YAPO: yet another preview ODA**

M. A. Apollonio, G. Colasante, P. G. De Luca, A. Diana, A. Gisotti

June 1992 **Proceedings of the SIGCHI conference on Human factors in computing systems**Full text available:  pdf(199.67 KB) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

The production of documents aimed at supporting the flow of information in an office environment is experiencing an evolution based on the most advanced automation systems which concerns substantially four aspects: 1) the production of manipulable documents showing a high quality of representation; 2) the production of documents that can be integrated (or exported) with other workstation formats on the basis of varying approaches (for instance the ISO standards); 3) the production of processes ...

**13 Reproducing color images using custom inks**

Eric J. Stollnitz, Victor Ostromoukhov, David H. Salesin

July 1998 **Proceedings of the 25th annual conference on Computer graphics and interactive techniques**Full text available:  pdf(217.32 KB) Additional Information: [full citation](#), [references](#), [citations](#), [index terms](#)

**Keywords:** Kubelka-Munk model, Neugebauer model, color printing, color reproduction, gamut mapping, ink selection, separations

**14 PreSense: interaction techniques for finger sensing input devices**

Jun Rekimoto, Takaaki Ishizawa, Carsten Schwesig, Haruo Oba

November 2003 **Proceedings of the 16th annual ACM symposium on User interface software and technology**Full text available:  pdf(2.38 MB) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Although graphical user interfaces started as imitations of the physical world, many interaction techniques have since been invented that are not available in the real world. This paper focuses on one of these "previewing", and how a sensory enhanced input device called "PreSense Keypad" can provide a preview for users before they actually execute the commands. Preview important in the real world because it is often not possible to undo an action. This previewable feature helps users to see what ...

**Keywords:** gesture sensing, input devices, previewable user interfaces

**15 Editing and authoring: User-directed analysis of scanned images**

Steven J. Simske, Jordi Arnabat

November 2003 **Proceedings of the 2003 ACM symposium on Document engineering**Full text available:  pdf(3.36 MB) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Digital capture (scanning in all its forms, and digital photography/video recording), in providing virtually free temporary memory of captured information, allows users to "over-gather" information during capture, and then to discard unwanted material later. For cameras and video recorders, such editing largely consists of discarding images or frames in their entirety. For scanners (and high-resolution camera/video), such editing benefits from a preview capability that provides quick and reliable ...

**Keywords:** bottom-up analysis, classification, click and select, preview display, scanning, segmentation, user interface, zoning

**16 Learning by doing with simulated intelligent help**

John Carroll, Amy Aaronson

August 1988 **Communications of the ACM**, Volume 31 Issue 9

Full text available:  [pdf\(5.00 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#), [review](#)

Intelligent advisory interfaces will afford new approaches to help and training problems, however little is known about the usability of such facilities. This recent study indicates that although intelligent help can support users, there are also specific potential problems.

### 17 Methods for empathic design: Dancing with a machine: a case of experience-driven design

Paul Hekkert, Marc Mostert, Guido Stompff

June 2003 **Proceedings of the 2003 international conference on Designing pleasurable products and interfaces**

Full text available:  [pdf\(3.29 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

For experience-driven design to become an influential design strategy, much effort should be put into method development and elaborate case studies. In the present paper, we present the design of an experiential copier on the basis of an interaction-centred design approach, called ViP. The approach supported us to pre-define the interaction with the machine, in the form of a multi-faceted experience. This experience was translated into a concept design of a copier. The result is a design that af ...

**Keywords:** emotion, experience design, interaction, product design

### 18 Browser comparison

Ralph Krause

March 2002 **Linux Journal**, Volume 2002 Issue 95

Full text available:  [html\(14.66 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [index terms](#)

A look at the strengths and weaknesses of seven web browsers.

### 19 Types and persistence in database programming languages

Malcolm P. Atkinson, O. Peter Buneman

June 1987 **ACM Computing Surveys (CSUR)**, Volume 19 Issue 2

Full text available:  [pdf\(7.91 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#), [review](#)

Traditionally, the interface between a programming language and a database has either been through a set of relatively low-level subroutine calls, or it has required some form of embedding of one language in another. Recently, the necessity of integrating database and programming language techniques has received some long-overdue recognition. In response, a number of attempts have been made to construct programming languages with completely integrated database management systems. These lang ...

### 20 Reproducing color images with embedded metallic patterns

Roger D. Hersch, Fabien Collaud, Patrick Emmel

July 2003 **ACM Transactions on Graphics (TOG)**, Volume 22 Issue 3

By combining a metallic ink and standard inks, one may create printed images having a dynamic appearance: an image viewed under specular reflection may be considerably different from the same image viewed under non-specular reflection. Patterns which are either dark or hidden become highlighted under specular reflection, yielding interesting visual effects. To create such images, one needs to be able to reproduce at non-specular reflection angles the same colors, by standard inks alone or in com ...
